Region-wise Action Map

18 of 37 Vision Under Implementation

State-wide Initiatives

- Monsoon Relief: ₹5,000 → ₹7,000 for salt pan workers. ✓
- Local Job for Local Youth: Incentives for 75% TN youth hiring. ✓
- Micro Tech Parks: TIDEL Neo in 25 towns. ✓
- Top 20 Projects: Industry Transformation Maps. ✓
- Globalisation of TN Industries: Enterprise TN, Export Cell, FTA. ✓
- SIPCOT Reforms: Eco-parks, circular economy, land bank. ✓
- Licence in 21 Days: Strengthened Single Window System. ✓
- TNIPA: Authority for mega investments. ✓
- Diaspora Investment Mission: "Invest in Your Hometown." ✓
- AI Economy Mission: AI, Deep Tech & GCC export mission.
- Arivagam AI City: University, semiconductor testing, skilling. ✓
- District Industrial Plans: All 38 districts. ✓
- EV Battery Cell Manufacturing: Subsidy in Industrial Policy
- Battery Recycling (PLI): Lithium & cobalt ecosystem.
- Strategic Investment Authority: ₹50,000 cr co-investment fund. ✓

Northern

- Upgradation - Vallam Vadagal Aerospace Park.
- Cuddalore SIPCOT Clean-up: CETP & TTRO facilities.✓
- Biofuel & Ethanol Units:
- Cuddalore biofuel cluster.
- Maraimalai Nagar SIPCOT: EV battery testing & certification.
- Siruseri SIPCOT IT Park: AI, FinTech & GCC hub.
- Motor & Electronics Zone (Maduramangalam).✓
- New Kallakurichi Industrial Park Skill development centre (Ranipet-Vellore).

Western

- Robotic Machine Centre: Combatore robotics hub.
- EV Bus Body Building at Karur.
- Salem Special Materials Zone: Aerospace, defence, healthcare.
- i-Tamil FinTech Corridor:
- Combatore digital finance hub. •
- Multi-Modal Logistics Park: Combatore logistics hub.
- Airport Expansion: PPP-based Combatore airport.

Central

- Trichy Aerospace & Heavy Engineering Zone: Aerospace & Heavy Engineering Park near Trichy.
- Land bank creation in Backward districts like Perambalur, Ariyalur, Pudukottai and other districts.

Southern

- Nanguneri SEZ: Free Trade Warehousing Zone.
- Madurai–Thoothukudi Corridor: Industrial nodes + rail corridor.
- Space Industrial Park Expansion: Thoothukudi–Tirunelveli.
- Space Testing Centre: Common mfg & testing facility. ✓
- Space Technology Investment: Propellant park & investment zone.
- Green Hydrogen Hub: Thoothukudi Port bunkering. ✓
- Night Flight & Cargo Hub: Thoothukudi and Coimbatore
- Multi-Modal Logistics Park: Thoothukudi

✓ - Under Implementation

FROM COMMITMENT TO PROGRESS

In just 200 days, Tamil Nadu has attracted investment commitments across 20+ sectors and 20+ districts, spanning automobiles, aerospace, electronics, shipbuilding, textiles, renewable energy and emerging technologies. These commitments reflect growing investor confidence and a shared vision for industrial growth, meaningful employment and greater economic opportunities across the State.

3 NOV 2026
ACT BROUGHT INTO FORCE

01 **TAMIL NADU INVESTMENT PROMOTION COMMISSION (TNIPC)**
Apex body to oversee investment promotion, project grounding, employment, EoDB reforms and exports.

02 **21-DAYS TIMEBOUND APPROVALS**
21 working day processing framework for covered G2B clearances, simpler regulations and digital services.

03 **EASE OF DOING BUSINESS REFORMS**
24 Ease of Doing Business reforms across 12 departments to simplify regulations, accelerate approvals and improve investor facilitation.

TAMIL NADU INVESTMENT PROMOTION COMMISSION (TNIPC)

A major step towards turning investment commitments into action. Established within 200 days of new government, the Tamil Nadu Investment Promotion Commission (TNIPC), chaired by the Chief Secretary, brings key departments and agencies together to accelerate project implementation, resolve bottlenecks, facilitate investments and drive industrial growth, employment and exports across the State.

FIRST MEETING - 13 NOVEMBER 2026

COMPOSITION

Chairperson
Chief Secretary to Government

Member-Convener
Secretary, Industries, Investment Promotion and Commerce Department

Commission
20 members including key departments and agencies

MANDATE OF THE TAMIL NADU INVESTMENT PROMOTION COMMISSION

11 STATUTORY FUNCTIONS • CLAUSES (a)-(k)

(a) OVERSEE INVESTMENT PROMOTION
Advise, oversee and review investment promotion, project grounding, employment, exports and all responsible agencies.

(b) TRACK STRATEGIC INVESTMENTS
Track investments of 200 Cr or over 5000+ jobs; FTA-linked projects, Tamil-origin overseas investments and other notified investments.

(c) ACCELERATE PROJECT IMPLEMENTATION
Review progress from grounding to operation; issue binding directions on clearances, incentives and approvals.

(d) FACILITATE REINVESTMENT
Support expansion and reinvestment by existing industrial units.

(e) REVIEW INDUSTRIAL LAND USE
Review land allotted by SIPCOT, TIDCO, SIDCO, TAHDCO and ELCOT; ensure transparency and optimal utilisation.

(f) REVIEW INDUSTRIAL ESTATE LAWS
Review laws governing industrial estates and townships; recommend measures including delegation of powers.

(g) MONITOR STRATEGIC AGENCY PROJECTS
Monitor TIDCO, TIDEL Park and TICEL Bio Park projects against State priorities.

(h) RESOLVE INVESTMENT BOTTLENECKS
Identify systemic impediments; recommend investment-climate and Ease of Doing Business reforms; oversee the Single Window.

(i) RE-ENGINEER BUSINESS PROCESSES
Recommend self-/third-party certification, e-documents and other process reforms to meet time limits.

(j) REVIEW ACT IMPLEMENTATION
Periodically review implementation of the Act and Rules.

(k) PERFORM OTHER ASSIGNED FUNCTIONS
Undertake other investment-promotion and investment-climate functions entrusted by Government from time to time.

EASE OF DOING BUSINESS

FASTER CLEARANCES. SIMPLER PROCESSES.

Making it easier to do business is central to Tamil Nadu's vision of becoming a globally competitive investment destination. In just 200 days, the State has advanced over 24 reforms across 12 departments, with 23 Government Orders issued, simplifying regulations, reducing procedural hurdles and accelerating business approvals.

A major milestone is the introduction of a 21-day processing framework for covered business clearances, alongside digital services, simplified documentation, streamlined licensing and greater transparency. These initiatives reflect Tamil Nadu's commitment to creating a faster, more predictable and investor-friendly business environment where enterprises can establish, operate and expand with greater ease.

A STATEWIDE BUSINESS REFORM PROGRAMME

Performance and regulatory measures reported in the November 2026 review

JAN 2021 - APR 2026	1,15,224 Applications Received	1,14,438 Applications Processed	1,07,068 Total Approved	93.9% Processed Within Timeline
MAY 2026 ONWARDS	21,753 Applications Received	19,323 Applications Processed	18,601 Total Approved	96.4% Processed Within Timeline

OVER 24 REFORMS ACROSS 12 DEPARTMENTS

EASE OF DOING BUSINESS

REFORMS

01 21-day processing of business clearances

Covered pre-establishment, pre-operation and post-operation G2B clearances are processed through TNSWP within the 21 working day framework.

02 SIPCOT land allotment within 21 days

Allotment orders are to be processed within 21 working day from closure of the application-submission window; allotment details and application status are to be published online.

03 Self-attested documents instead of affidavits

Self-attestation is accepted wherever applicable. Affidavits or notarised documents are not to be insisted upon unless specifically mandated under a Government of India regulation.

04 Reuse documents already held by Government

Under the "Only Once" principle, previously submitted information and documents should not be requested again; they are to be retrieved through interoperable electronic systems wherever feasible.

05 Automatic appeals for delayed applications

Applications exceeding the prescribed Tamil Nadu Business Facilitation Rules timeline generate an automatic appeal to the State Single Window Monitoring Committee (large units) or MSME Single Window Monitoring Committee (MSMEs).

06 Dedicated Industrial Cell at DTCP

Dedicated processing for industrial building applications with built-up area greater than 40,000 sq. ft. and less than 2,00,000 sq. ft.

07 Simpler high-rise planning permission

In the Chennai Metropolitan Area, the CMDA-led committee may grant or refuse high-rise planning permission without a separate State Government approval stage.

08 Jt. Director Agriculture concurrence removed for dry land conversion

For agricultural-to-non-agricultural change of land use in non-planning areas, the Joint Director of Agriculture NOC is no longer required; DCP considers the uploaded documents.

EASE OF DOING BUSINESS

REFORMS

09

Collector concurrence removed for wet land conversion

For wet-land development in non-planning areas, prior concurrence of the District Collector has been removed, eliminating one approval layer.

10

One statewide registration for professionals

Registered professionals use one Online PPA registration across planning jurisdictions, instead of separate registrations with DCP, CMDA and urban local bodies.

11

Online building-permission appeals

An integrated Online PPA Portal mechanism enables the online filing, resolution process and end-to-end tracking of building-permission appeals.

12

Trade-licence validity increased: From 3 years to 10 years

Municipal trade-licence validity is extended from three years to ten years, reducing the number of renewal cycles.

13

Removal of overlapping trade licences

Establishments already registered under the Shops and Establishments Act are exempt from obtaining a separate trade licence, as described in the advertorial.

14

White Category: instant online acknowledgement

White Category industries are exempt from CTE/CTO and instead submit an online intimation to TNPCB, which provides an instant acknowledgement certificate.

15

Green Category consent: From 14 years to 16 years

Environmental consent validity for Green Category industries is extended from 14 to 16 years.

16

Online processing and increased validity for tree and timber permissions

Online processing of tree-felling and timber-transit permits, with standard timelines and inspection checklists. Transit validity: one month to one year; bulk permits extendable up to six months.

EASE OF DOING BUSINESS

REFORMS

17

Field inspection removed for eligible LT domestic power connections

LT domestic single-phase connections up to 4 kW, where no extension or improvement work is required, may use self-declaration and GIS verification without mandatory field inspection.

18

SIDCO land-allotment orders in 30 days

Within 30 days of completing the screening process; allotment status is published and updated online.

19

Perpetual Legal Metrology registration

A perpetual registration system replaces recurring licences for manufacturers, repairers and dealers of weighing and measuring instruments.

20

Tourism registration: From 3 years to 7 years

Applies to Home Stay and B&B establishments, Adventure Tourism Operators, Tour Operators, Tourist Transport Operators and Travel Agents. Online self-renewal is provided for Home Stay and B&B.

21

Mandi licences: From 3 years to 5 years

Extended licence validity reduces recurring renewal requirements.

22

24×7 shops and establishments

Eligible establishments may operate 24×7, subject to conditions. A Director General of Police circular directed police officials to be sensitised to these provisions.

23

School endowment requirement removed

The previous ₹50,000 - ₹3,00,000 minimum endowment requirement for private-school recognition has been eliminated.

24

Private-school regulatory services digitised

Online services cover permission to open a school; CBSE/ICSE NOC; upgradation; bifurcation; closure; shifting; merger; transfer of management; change of name; and recognition renewal.

TAMIL NADU SEMICONDUCTOR ECOSYSTEM SCHEME 2026

Guidance TamilNadu

Semicon 2.0-aligned support for a stronger semiconductor value chain

Released on 15 October 2026 and designed to complement India's Semicon 2.0 initiative, the Tamil Nadu Semiconductor Ecosystem Scheme 2026 aims to strengthen an integrated semiconductor value chain in the State. The scheme supports investments across machines and materials, fabs and ATMP/OSAT, while building on Tamil Nadu's strong electronics manufacturing base and policy ecosystem.

MAJOR POINTERS

TWO-TRACK MODEL

Track 1: Projects approved under Semicon 2.0. Track 2: Projects not routed through, or not selected under, Semicon 2.0.

COVERAGE

Machines & materials, semiconductor fabs, display fabs, compound semiconductors, advanced packaging and legacy packaging.

STATE SUPPORT

Track 1 provides additional State support up to 25% for select categories, and 20% for legacy packaging. Track 2 offers investment promotion subsidy of 15%-25% and turnover-based support up to 2%.

EMPLOYMENT FOCUS

At least 50% Tamil Nadu domicile employees in direct employment and 60% in high-value jobs.

ADDITIONAL INCENTIVES

10% payroll subsidy for eligible domiciled high-value employees, 100% stamp duty support, 5-year electricity tax exemption and 5% interest subvention for 6 years.

TAMIL NADU ADVANTAGE

Electronics exports reached US$19.9 billion in FY 2025-26, accounting for about 41% of India's electronics exports, supported by established clusters and EMCs.

WHY IT MATTERS

From design and materials to fabs and packaging, Tamil Nadu is positioning itself across the semiconductor value chain.

THE ROAD AHEAD

TAMIL NADU
SINGLE WINDOW PORTAL 3.0

INTENDED PLAN

Applications, timelines & risk-based clearances

TEN PROPOSED REFORMS

01 Sole Channel

- TNSWP to be the sole channel for Government-to-Business (G2B) applications.
- Industry applications will not be accepted through any other portals or offline channels.

02 21-Day Delivery

- Maximum 21 working days, with stage-wise timelines.
- Inspections limited to 50% of the overall processing timeline.

03 Single Query & Clock Pause

- A single query per application, with a prescribed response period.
- Processing timeline paused, not reset, when a query is raised.

04 Deemed Approval & Auto-Escalation

- Deemed approval on timeline expiry for certain services; pending cases automatically escalated to the designated authority.

05 Risk-based Regime

- Services to be classified as low, medium or high risk.
- Self-certification, deemed approval, third-party certification or inspection, as applicable.

TAMIL NADU SINGLE WINDOW PORTAL 3.0

INTENDED PLAN

Applications, timelines & risk-based clearances

TEN PROPOSED REFORMS

06 Process Re-engineering

- Elimination of redundant approvals and documents.
- Simplified workflows to be developed.

07 Parallel Processing

- Interdependent approvals to be processed simultaneously, wherever applicable.

08 Once-Only Data Capture

- Documents already available with the Government not to be sought again.
- Details to be auto-populated through Entity Locker and APIs.

09 Investor Facilitation

- Pre-scrutiny of applications before submission.
- Handholding cells at District Industries Centres (DICs) and Guidance Tamil Nadu.

10 Monitoring & Escalation

- Dashboard-based monitoring of pending applications.
- Reviews at District, State, Chief Secretary (CS) and IPMB levels.

TAMIL NADU INDUSTRIAL POLICY 2027

Shaping the Next Phase of Industrial Growth

Tamil Nadu is developing a forward-looking Industrial Policy 2027 to strengthen its position as a globally competitive manufacturing and investment destination. Built on extensive stakeholder consultations, the proposed policy seeks to attract high-value investments, foster innovation, create quality employment and promote balanced industrial development across the State.

With a focus on emerging technologies, stronger industrial ecosystems, sustainability and global competitiveness, the policy aims to accelerate Tamil Nadu's journey towards a US$1.5 trillion economy by 2036.

MAJOR POINTERS

INVESTMENT & INDUSTRIAL GROWTH

Attracting high-value investments and strengthening manufacturing capabilities.

FOCUS & EMERGING SECTORS

Strengthening established industrial sectors while promoting investments in emerging sectors such as semiconductors, AI, aerospace and other future-ready industries.

SERVICE SECTOR INCLUSION

Promoting research, development, technology adoption, industry–academia collaboration, with a focus on the services sector as well.

EMPLOYMENT & REGIONAL DEVELOPMENT

Creating quality jobs and expanding industrial opportunities across districts.

EXPORTS & GLOBAL INTEGRATION

Strengthening global value-chain participation and export competitiveness.

SUSTAINABLE INDUSTRIAL DEVELOPMENT

Encouraging green manufacturing, resource efficiency and circular-economy practices.

CURRENT STATUS

Policy formulation is underway, with stakeholder consultations initiated in July 2026 and inputs being gathered from industry associations, sector experts and other stakeholders.
